

# INFIMA Security | 2026 Security Awareness Training Course Catalog

Interactive Learning for the Modern Threat Landscape

## ESSENTIALS — Interactive Courses for 2026

### Phishing in the AI Age (8 min)

Prepare for AI-generated voices, deepfake video calls, and sophisticated phishing across email, text, voice, and social media. Hands-on challenges teach you to recognize and respond to modern threats.

### Data Has Consequences (6 min)

Transform how you think about information security. Learn to spot sensitive data, handle access requests properly, and respond decisively when something goes wrong.

### The Human Hack (7 min)

Discover how attackers exploit trust, authority, and urgency to bypass security. Experience pretexting calls, witness tailgating attempts, and learn the psychological tricks behind social engineering.

### Small Habits, Big Protection (5 min)

Build the daily security routines that prevent breaches without slowing you down. Simple habits that make a real difference.

## INDUSTRY — Compliance

- Safeguarding PHI (HIPAA)
- Protecting Personal Information (PII)
- Controlled Unclassified Information (CUI)
- GDPR: European Data Privacy Requirements (EU)
- PCI DSS: Payment Card Security Standards (Payment Cards)
